2. Background

Chem-cleaner (Pty) Ltd is a registered company which has been in existence since November 2015. The company has been motivated by the observation that the entry into the market is easy as long as the products cater for individual consumer's needs. During this period it has gained considerable experience on the nature and needs of the customers in the sector. Institutional customers and their respective suppliers normally buy in bulk from manufacturers who specifically produce what the customers want because retailers do not provide for their individual needs. Generally the existing brands in large retailers do not cater for individual cleaning needs. For instance there are no retailers who may supply detergents in large quantities scale such as degreaser, toilet dispersant, anti-freeze, pine gel etc. Further, institutional customers such as hospitals and health centres, fleet companies, carwashes, schools, restaurants etc need specially formulated products to cater for their cleaning needs. Given our experience we have capacity to formulate products which can be used by the following markets:

- Hospitals and health centre
- Fleet companies
- Mining
- Cleaning companies
- Motor spars and garages
- Car washes
- Textile industries
- Schools
- Restaurants
- Mosques
- Hotels and Guest Houses

3. Products Offered

Table 1. list of products manufactured by the company and their functions

Products	Function
Pine gel	It is a multi-purpose detergent used for dish washing, floor cleaning and clothes. It acts as a disinfectant and fly repellent
Dish washing Liquid	Domestic washing of dishes
Triple pine	It is used as a disinfectant in cleaning morgues equipment
Pine Fresh	Antiseptic disinfectant liquid that removes germs from skin, safeguards from infections caused by cuts and scratches and can also be used as household disinfectant on home surfaces
Spot and Stain remover	Removing strong stains on clothes
Aluminium cleaner	It removes greasy dirt on metallic objects and maintains metals shiny
Floor Stripper	Effective for floor scrubbing and dirt removal on the floor
Hand soap, hand sanitiser and foam bath, pine-fresh(dettol)	Kill germs and leave the skin soft and clean
All-purpose cleaner	It removes stain on hard and soft surfaces. It also dissolves oils and dirt on spongy materials
Engine Cleaner	It dissolves grease, oils and dirt on engine parts without strong rubbing
Anti-freeze and summer coolant	Makes car radiator functions well; prohibiting both overheating and freezing
Polish (furniture, tyre and dashboard)	It maintains the colour and texture of different materials.
Heavy-duty Degreaser	It is a special degreaser formulated to remove oils and hard core dirt
Distilled water	Used in car battery electrodes
Battery acid	Used in car battery electrodes
Toilet draining and cleaning (drain cleaner, toilet dispersant, toilet bowel cleaner, duo blocks)	These products are used to biodegrade the organic matter and also deal with bad smell in the toilets

NB: Chem Cleaner is not limited to the products listed above, some of the detergents and other cleaning chemicals are produced on request.
